

Barrande Fellowship programme 2025

The French Institute in Prague and the Czech Ministry of Education, Youth and Sports (MSMT) are happy to announce the new launch of the **Barrande Fellowship Programme 2025**, the exchange mobility programme for Ph.D. students between the Czech Republic and France.

The programme offers scholarships to support “cotutelles” and short-term research stays. Students have to be registered either at a Czech University (for mobilities to France) or at a French University (for mobilities to the Czech Republic).

All scientific fields are welcome!

The application deadline is January 26, 2025.

All information on the programme and the application process can be found in the application guidelines (for a cotutelle project and for a short research stay).

We are also organizing two online presentation events of the programme on November 26, 2024.
