

Green Challenge for CTU students and student teams

If you are a student eager to drive positive change through a sustainable project rooted in your field of study, we invite you to be a part of the Green Challenge community. Join us in contributing to a sustainable future and showcasing the impact of sustainable and innovative solutions within your academic discipline!

Registration is required by 13th of May, 2024.

What is Green Challenge?

Every year DTU organizes Green Challenge (GRØN DYST), allowing students to present their sustainable project to industry professionals, fellow students and professors. The aim of the conference is to ensure that future engineers integrate aspects of social, economic, and environmental sustainability in their work.

Why participate?

- Get advice and feedback on your project
- Gain practical experience in areas such as communication and networking
- You can get inspired by other students and built a network
- Win [cash prizes](#)

To participate in Green Challenge:

- Your project must relate to one or more of UN's Sustainable Development Goals and be made in connection with your education
- You must be available on the 28rd of June 2024 for the Green Challenge conference in Copenhagen, Denmark

Practical information

Date: Friday, 28 June 2024

Location: At DTU (Technical University of Denmark), Copenhagen, Denmark

Registration: is required by 13th of May, 2024
